**CropMag® 200**  
Suspension Grade Magnesium Oxide for Plant Food

<table>
<thead>
<tr>
<th>DESCRIPTION</th>
<th>CropMag 200 is a high purity, plant food grade magnesium oxide produced from magnesium-rich brine and dolomitic lime.</th>
</tr>
</thead>
<tbody>
<tr>
<td>USES</td>
<td>CropMag 200 is an excellent source of magnesium for liquid suspension fertilizer mixtures. The fine particle size of CropMag 200 maintains a stable suspension and fast availability to crops. Minimal chemical reaction of CropMag 200 with other ingredients in suspension fertilizer mixtures helps maintain viscosity levels for desirable handling and spreading.</td>
</tr>
</tbody>
</table>
| COMPOSITION | **Typical**  
Magnesium Oxide (MgO), % ignited basis | 98.0  
Magnesium Equivalent (Mg), % | 58.6  
Loss on Ignition, % | 0.2 |
| PACKAGING   | Martin Marietta Magnesia Specialties offers a variety of packaging options, including bulk (truck and railcar), bags, and bulk sacks. Please contact a sales representative for information on available packaging options. |
| STORAGE     | Store in a dry place. Exposure to moisture may cause caking. |

**DESCRIPTION**

CropMag® 200 is a high purity, plant food grade magnesium oxide produced from magnesium-rich brine and dolomitic lime.

**USES**

CropMag® 200 is an excellent source of magnesium for liquid suspension fertilizer mixtures. The fine particle size of CropMag® 200 maintains a stable suspension and fast availability to crops. Minimal chemical reaction of CropMag® 200 with other ingredients in suspension fertilizer mixtures helps maintain viscosity levels for desirable handling and spreading.
